# DOLPHIN SWASH

## DOLPHIN SWASH CL

### Dolphin Swash

Plug & play cleaning of the pool floor and the hard-to-reach floor-wall angle.

Small, lightweight and easy to handle, this autonomous unit requires no pre-installation or connection to pool systems.

### Dolphin Swash CL

This reliable pool-wide cleaner, leaves the pool floor and walls sparkling clean, ready for family swimming fun.

Adjustable handle floats help ensure no spot is missed.

### Dolphin Swash TC

Dual-drive motor with extended maneuvering capabilities for exceptional pool coverage.

Remote control with option to choose between cycle times – 1 hour for fast cleaning and 3 hours for standard cleaning.

Manual control for pint point cleaning

### Total pool cleaning

Efficient scanning and filtering ensure accurate and effective cleaning of any pool shape, type and size.

### Pure hygiene

Powerful brushing helps to prevent germination of algae and bacteria, greatly reducing chemicals costs.

### Cost-effective pool care

Advanced cleaning technologies save water and energy and reduce backwashes, as its totally independent of your filtration equipment.

### Minimum service costs

Ease of use and maintenance and proven, long-lasting reliability virtually eliminate after-sales care.
